

March 10th GRIN  
Meeting

## Find local resources that can help with your Invention

To further help our members learn more about the business considerations when moving your invention forward, we will be inviting members of the entrepreneurial support organization (ESO) community to our meetings throughout the year. These speakers will also be able to share insights about local resources at your disposal and how to best utilize them.

Next month, we're pleased to welcome Allison Dile, with the Muskegon Innovation Hub!

The Muskegon Innovation Hub (the Hub) is a business innovation program that provides coaching, funding, networking, and a synergistic work environment to help businesses and entrepreneurs achieve their growth potential. We are a key partner in the region's innovation ecosystem, supporting startup businesses, entrepreneurs, and corporate innovation teams.

Come prepared to learn more about the Hub, how they can help inventors, and how you can take advantage of their offerings! Speaker

Bio: Allison Dile is the Business Incubator Manager at the Grand Valley State University Muskegon Innovation Hub, where she coordinates services for area entrepreneurs, including events, grant programs, and developing a coworking space.
