

June 9th GRIN
Meeting

GRIN Online Networking Meeting

The GRIN is taking the summer off from its regular organized monthly meetings and instead hosting a GRIN online networking meeting. This is an informal gathering of local inventors that will come together to talk about the progress of their invention. This is perfect for the inventor that has an idea in their head and does not know where to start to inventors selling product and looking for marketing ideas or anyone in-between. To be safe, this month we will be holding it on Zoom but will try to make it an in-person meeting next month.

Please Join Us

Date: June 9th, 2020

Time: 6:00 pm

Location: Zoom
